

THINK-TAC-TOE- Entering Grade 8

<p>Identify the theme of the book you've read. Follow the literary analysis essay format we've used. State the theme and then use text support and elaboration to support it.</p>	<p>Determine a strategy you plan on implementing as you read your book. Provide evidence of how you used the strategy and how it helped your reading comprehension.</p>	<p>Create two poems that strongly relate to the text that you have read. Your poem should have at least twelve lines, figurative, and descriptive language.</p>
<p>Find two news articles that relate to a social issue within your book. Summarize and reflect upon each article.</p>	<p>Create a commercial (video) or a print ad for your book. Include information about the text and persuade others to read it.</p>	<p>Visit a website that relates to your book, such as the author's website or one that focuses on an important setting of your book. Write an entry that shows how the website helped you to better understand your book.</p>
<p>Create a book club that meets at least twice. Record when your meetings took place, who was there, and what you discussed.</p>	<p>Develop your responses to three (or more) meaningful quotes from your book in the double-entry journal format. Since you're only responding to three quotes, careful consideration should be made for your selections and meaningful insight should be present in your responses.</p>	<p>Illustrate three important scenes in your book. Include a description for each scene and why you chose to illustrate those scenes.</p>

You will need to choose **THREE** of the above choices that create a line (as in tic-tac-toe).
